

SENIOR CORROSION ENGINEER

Santa Fe Springs, CA

Corrpro Companies, Inc. is looking for a Senior Corrosion Engineer with NACE CP certifications.

Corrpro, a subsidiary of Aegion Corporation, is a corrosion engineering, cathodic protection, and corrosion monitoring business for the protection and preservation of infrastructure. Corrpro provides professional corrosion consulting and cathodic protection engineering services to major oil companies, government agencies, municipal water, sewer and gas utilities, universities, and public transportation agencies. Corrpro has construction installation services to install cathodic protection systems for any type of structure.

- Plan, manage and oversee Cathodic Protection projects to successful completion within budget, including final reports
- Supervise engineers and technicians assigned to the projects
- Act as direct interface with customer on assigned projects or customer accounts
- Assist in cost estimation, proposal development and collection of overdue accounts on assigned projects
- Schedule and coordinate multiple engineering projects to successful completion
- Analyze material and structure layout to conceive most appropriate design
- Prepare specifications for material and execution
- Work with estimators to estimate cost to furnish and install materials
- Create customer survey reports and analyze field data
- Make modifications to design as needed
- Apply comprehensive engineering principles and corrosion theory to prepare supporting mathematical calculations and conceptual design plan
- Complete customer invoices for submittal to district engineering manager on a monthly basis
- Perform economic evaluations of alternative methods of cathodic protection and corrosion control
- Ensure proper application of methods and procedures, modify as appropriate
- Assist in training entry-level technical staff

QUALIFICATIONS

- Bachelor of Science degree in Chemical, Materials, or Electrical Engineering or related
- PE preferred
- NACE CP Technologist or Specialist Certification
- 8 years Cathodic Protection project experience
- Strong project management and problem-solving background
- Must travel to client sites as needed
- MUST live in the United States

We provide opportunity for Career Growth with Competitive Salary and Excellent Benefits Package including Medical, Dental, Vision, Quarterly Bonus Potential, 401k, 14 days Paid Time Off and 8 paid Holidays per calendar year, Tuition Assistance, and more.
